**Digital Experience Management**

Ekara Platform

A single platform for access to all Ekara services

Your multi-service platform

Ekara Platform is the single access point to all Ekara services.

It comprises 3 components:

- Ekara Portal, the web portal that provides all you need for advanced diagnostics and publishing quality reports
- Ekara Connect, a set of web services methods to integrate Ekara into your information systems
- Ekara Grid, the leading European and global DEM network

Ekara Platform

Ekara Portal	Ekara Connect

Ekara Grid

The strengths of Ekara Platform

Europe's foremost DEM network

SaaS or On-Prem: it's up to you!

A mobile app keeps you informed anytime, anywhere

Ekara Platform services

Always up and running, 24/7, to monitor your applications

An analysis portal for advanced diagnostics

Configurable periodic e-mailing of reports

Alerts when incidents occur or even when your applications slow down

A SaaS platform in the cloud for fully delegated services

On-premise deployment for total independence

Ekara Portal, for advanced data-driven diagnostics

In a single, unified interface, Ekara provides internet and intranet synthetic (robot) measurements alongside metrics from real-user monitoring (RUM).

Whether your aim is to generate a monthly quality report, diagnose an incident, or monitor the progression of a deployment to production, Ekara Portal provides you with all the information you need.

Ekara Connect, to plug Ekara into your information system

ITSM   Ticketing

Reporting   Monitoring

Ekara Connect is a set of REST methods for automating tasks like:
- issuing scheduled reports
- connecting to your network monitoring
- opening support tickets
- exporting measures to a third-party system
- ad hoc execution of your scenarios (regression tests)

With Ekara Connect, you can integrate Ekara into your business processes with minimal effort.

Ekara Grid, the leading European and global DEM network

Ekara Grid gives you the advantages of a unique analysis network:
- a mesh of 200 locations covering 6 continents
- positioned on 4 major global public cloud providers (AWS, Azure, Google, and Alibaba Cloud)
- with the vantage point of the premium European telecom providers (Orange, SFR, BT, Telefonica, Proximus, Telenet, Telia, CNC, and others)

Ekara Platform, a single access point to all your Ekara services
